When we discuss hybrid/in-person instruction, what model do you prefer?
Please choose one of the following options:

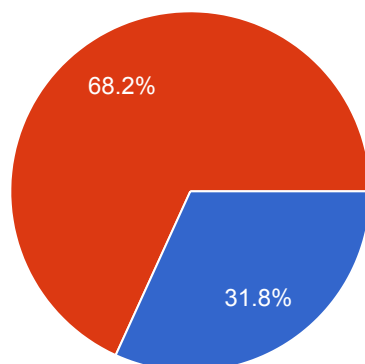

3,668 responses

- I prefer a 3-2 model (The district is divided into two groups, households are grouped together in alternating three d...)
- I prefer a 2-3 model (The district is divided into two groups, households are grouped together with two days in-pers...)
- I am not interested in anything other than virtual instruction for my child(ren) at this time.

For parents of elementary students in grades K-4: are you interested in a half-day model where students attend school either AM/PM every day? This schedule would be different than students in grades 5-12 as listed above in 3-2 or 2-3 models.
